

I-32 PDF Output Writer

The I-32 Writer provides the ability to output Wolters Kluwer Financial Services' VMP Mortgage Solutions documents in file formats that facilitate e-mortgage transactions. Compatible with the I-32 Document Engine and the RAKIS® Document Control and Production System, the I-32 Writer outputs UFX files in PDF, XHTML, and SMART Doc™ formats.

Wolters Kluwer Financial Services explored the functionality of formatting to create a tool expressly for reproducing UFX files as PDF files. Matching the UFX file precisely in every attribute—from layout, fonts, and graphics all the way down to data—files generated by the I-32 Writer for PDF are easy to navigate, output accurately to any printer, and don't require any third-party licensing to produce.

Benefits

- Accurate UFF/UFX representation in PDF format
- An accepted “view” in SMART Docs and e-mortgage
- No third-party licensing required
- Multi-threaded to process thousands of jobs at once
- Easily integrates with other I-32 components and RAKIS solutions
- Supports multi-line fields
- Supports standard PDF security features
- Can output forms with fields or “flat”
- Compact and quickly downloadable files
