AN OVERVIEW

Wolters Kluwer Financial Services’ Regulatory and Risk Management Indicator measures 10 critical factors that help illustrate the overall level of regulatory and risk management pressures U.S. banks and credit unions face.

These factors include 1) banks’ and credit unions’ concern over their ability to track regulatory changes; 2) comply with new and existing requirements; 3) prove compliance to federal regulators; and 4) the time and resources they have invested in compliance efforts. The factors also include 5) how effective banks and credit unions feel they are at managing overall risks to their institutions; 6) the involvement, buy-in and ability of the executive team in managing risk; and 7) the time and resources they have invested in managing risk.

For the final three factors of the Indicator formula, Wolters Kluwer Financial Services measures and compares 8) the number of significant new U.S. banking regulations; 9) the number of enforcement actions taken against banks and credit unions by federal regulators; and 10) the total dollar amount of federal regulatory fines levied against banks and credit unions.

What follows in this report are the results of the Indicator itself as well as the highlights of our findings, including banks’ and credit unions’:

- Overall Compliance and Risk Management Concerns
- Top Dodd-Frank Act and CFPB Concerns
- Greatest Risk Management Concerns

To obtain the data set used to compile the indicator, please contact us at WKFSCorporateComm@wolterskluwer.com.

Indicator Methodology

Wolters Kluwer Financial Services surveyed nearly 400 banks and credit unions on their most pressing regulatory and risk management concerns in January 2013 and then surveyed approximately the same number again in January 2014. We used the resulting measurements along with the changes we monitored in the actual regulatory environment to develop the latest Indicator.
GROWING CONCERNS AND MORE THAN $8 BILLION

The Main Indicator score rose to 121 from its baseline of 100 in January 2013. Driving the increase were climbing concerns in every compliance and risk management factor category as well as more than $8 billion in new regulatory fines and settlements at the federal level.

As their attention to compliance and risk management continues to grow, the Indicator shows that banks and credit unions are also investing in many more resources to address these areas than they were a year ago.
OVERALL COMPLIANCE AND RISK MANAGEMENT CONCERNS

- Maintain Compliance with Changing Regulations: January 2014 - 69%, January 2013 - 67%
- Keep Track of Changing Regulations: January 2014 - 67%, January 2013 - 66%
- Demonstrate Compliance to Regulators: January 2014 - 66%, January 2013 - 64%
- Manage Risk Across All Lines of Business: January 2014 - 56%, January 2013 - 60%
TOP DODD-FRANK ACT AND CFPB CONCERNS

- **Combined RESPA/TILA Disclosure Rule**: 72% (Jan 2014), 66% (Jan 2013)
- **Qualified Mortgage (QM) Requirements**: 67% (Jan 2014), 40% (Jan 2013)
- **Mortgage Servicing Requirements and Exam Guidelines**: 59% (Jan 2014), 49% (Jan 2013)
- **Qualified Residential Mortgage (QRM) Requirements**: 56% (Jan 2014), 44% (Jan 2013)
- **HMDA Reporting Amendments**: 53% (Jan 2014), 46% (Jan 2013)
- **Overdraft Protection and Deposit Advance Programs**: 37% (Jan 2014), 41% (Jan 2013)
- **The New “Abusive Acts” Standard within UDAAP**: 41% (Jan 2014), 37% (Jan 2013)

**Biggest Changes**

Attention to QM, QRM and mortgage servicing requirements and guidelines rose sharply following CFPB guidance.

Concern over the RESPA/TILA disclosure rule dropped after the final rules were issued.
Regulatory risk remains top of mind.

Fair lending risk grabbed the #2 spot when offered to respondents as a choice among greatest risk management concerns for the first time.
THE CURRENT STATE OF NON-QM LOANS

We asked banks and credit unions if they would still offer Non-QM loans after the CFPB’s new QM rules took effect. Nearly a third said yes, while about the same amount said no, and another third were uncertain.

TOP NON-QM LOAN TYPES OFFERED

- Adjustable Rate Mortgages: 21%
- Balloon Mortgages: 16%
- Home Equity: 10%

12% of respondents offering Non-QM Loans said they were holding them in their portfolios.
