

Fair Lending Wiz[®]

Automation for Effective Fair Lending Compliance

Fair Lending Wiz[®], automatically analyzes, verifies and documents your institution's compliance with all fair lending regulations. This software also automatically performs a full range of risk assessment tasks so you can devote your resources to developing corrective action.

Comparative File Review

Fair Lending Wiz's comparative file review allows you to instantly identify marginal files and determine occurrences of purposeful or overt discrimination, disparate treatment, and unduly selective standards. Rather than spending excessive time locating files and finding matches, time is spent on improving policies, processes and procedures.

Regression Analysis

The Fair Lending Wiz regression module is a highly advanced statistical model that utilizes your institutions data to perform regression analysis on pricing or decisioning. Fair Lending Wiz quickly evaluates thousands of files each minute while taking into account multiple factors to reveal potential discriminatory lending practices.

Data Preparation

The data preparation module of Fair Lending Wiz enables an institution's current data collection to improve the accuracy of Fair Lending data, decrease the time spent processing data and streamline workflow processes.

Solution Benefits

- Edit data for completeness and accuracy
