# Secure Digital Print

Designed for the  
Compliance Driven and  
Regulated Marketplace

**Wolters Kluwer Secure Digital Print offers financial institutions a best-in-class digital print solution for securely printing, delivering and tracking sensitive documents.**

Secure Digital Print is a managed solution encompassing the entire printing, shipping and tracking process where security, timing and audit capabilities are mandatory. We are compliant with statutory mailing and delivery methods, paramount in today's heavily regulated financial services marketplaces. Our professional print team has a solid track record of processing, printing, delivering and tracking millions of sensitive documents for some of the biggest and most demanding financial institutions in the world. Secure Digital Print is backed by powerful print technology, which

includes a state-of-the-art, high-velocity Xerox Trivor printer that can fulfill even the most challenging time-sensitive print requirements. Furthermore, our industry leading digital and physical plant security gives our clients confidence that their sensitive documents will be managed in a secure, compliant manner. Whether you are looking to outsource your print needs across the enterprise or support individual lines of business, no other solution helps better manage this critical business need.

### Client

Client digitally transmits document to us as a PDF via a secure transmission method. We employ best in class PKI encryption to protect our client's sensitive data and documents.

### High-Velocity Printing

Immediately upon receipt, our fulfillment team prints documents utilizing the Xerox Trivor printer for real-time/JIT (just-in-time) printing.

### Shipping

Documents are packaged and shipped in strict compliance with regulatory timing requirements and include tracking and audit capability.

### Consumer

Consumer receives document package on time.

We specialize in secure print fulfillment and delivery services for financial institutions in highly regulated, compliance driven industries such as banking, securities and insurance, where timing and audit trail are critical.

- Industry's strongest security and PKI encryption / SOC2e on all facilities to protect our customer's information and documents
- Meets regulatory requirements for timely document/disclosure delivery as well as audit trail and tracking capabilities on printed and shipped documents
- Same day print and ship capability with UPS, FedEx, USPS shipping options
- Best-in-class technology: Xerox Trivor printer supports real-time digital printing

#### USE CASE - MORTGAGE

*Our professional print team has securely printed, shipped and tracked millions of sensitive up-front mortgage disclosure documents for a global financial institution within strict regulatory guidelines.*

- Professional print team with years of experience and an impressive track record of securely printing, delivering and tracking millions of sensitive document packages
- Diverse use cases include lending, loan servicing and account opening in various lines of business including mortgage, investments and consumer

A Total Print Solution Advisory Team - Our team has years of experience successfully serving the print needs of financial institutions and can help evaluate your print program, identify gaps and provide a recommended program based on best practices.
